

# Tour of Victor Valley College Auto Tech Department

**INNOVATIVE OUTREACH.  
ENGAGING PARTNERSHIPS.  
TRANSFORMATIVE OUTCOMES.**

Did you know that over 69,000 openings for automotive technicians and mechanics are projected each year over the next decade (Bureau of Labor Statistics, 2021)? Victor Valley College Automotive Technician Program is preparing this generation of skilled technicians for the automation of tomorrow. Join this live tour of the VVC facility where instructors prepare future technicians for the evolving car industry. Be prepared to experience a guided tour, learn of the eight Federally recognized ASE certifications offered at VVC, and engage in a demonstration of the Advanced Driver Assistance System (ADAS) set to propel autonomous driving into the future.

**Lee Bennett**

Victor Valley Automotive Program

**Live Online Session**

Date: 10/18/2021

Time: 10:00 a.m. - 11:00 a.m. PST

**Audience**

High School & Middle School

## Topics of Discussion:

- ✓ Overview of automotive course offering, technician certifications, and industry practices.
- ✓ Review of Federally recognized ASE certifications such as parts salesperson, repair shop owner, or operator state-certified pollution control technician, and tune-up technician.
- ✓ Explanation of the widespread automation in the car industry and demonstration of the advanced driver assistance system (ADAS).
- ✓ Live guided tour of VVC Automotive Technology Program.
