

RACHAEL MANN

PACK YOUR BAGS FOR THE FUTURE: METATRENDS DRIVING CHANGE

**SATURDAY
OCTOBER 14, 2023**

8:30 AM – 3:00 PM

ABOUT THE WORKSHOP

We live and work in a rapidly changing world, and much of what worked in education in the past won't suffice in the future. How do we prepare young people for the unknown? In addition to technological changes, how do we use this newfound momentum to challenge conventional practices and ideas around education?

San Bernardino County ROP is proud to host this workshop which will explore where we have been, where we are, and where we are going to ensure that young people are future-ready through career and technical education. Let's tear down the many outdated ways of educating and replace them with approaches designed for now and beyond. This is our time for CTE!
