

Community Health Worker Training

August 19, 2024 - September 9, 2024
9:00 AM to 3:30 PM

The Community Health Worker Training course is designed for individuals interested in pursuing a career as a Community Health Worker or enhancing their skills in healthcare and social services. This course provides comprehensive training in the skills necessary to work as a Community Health Worker, including cultural competence, patient advocacy, healthcare systems, and health education.

Develop and enhance practical skills that are essential to effectively serve and engage with diverse communities.

Learn more about the resources available that can make a difference throughout the community.

No Cost to Participants
